Comments	A large dump pile was located a the entrance of the Spring Branch Trailer Park. Evidence of non-household waste being burned was found. Tires, mattresses, plywood, insulation, asphalt shingles and carpet were some of the materials that were being burned. A notice of violation (NOV) will be issued for violating the Open Burning Regulations.								
Comp. No.	KC10516	Comp. Info	The complainant stated the reported party is burning wooden furniture and cans. The complainant also mentioned the reported party is possibly burning tires.						
KCRO	2/22/2006	1/24/2006	KEVIN POINTER	Platte City	Platte	Burning/Open Dumps/Ground Water	Anonymous	ANS	A2431
Comments	On February 17, 2006, Ms. Adrienne Smith, an inspector with the KCRO, inspected the reported party's property and discovered a lot of material from a renovation/demolition project had been burned. Ms. Smith stated there is still partially burned material on site. The local fire and sheriff departments have been to the property, however, no report has been written. Ms. Smith issued NOV# A2431KC for open burning.								
Comp. No.	KC10517	Comp. Info	The complainant states the reported party is hauling construction waste and other junk (furniture) to his land and burning it or just leaving it lay around. The complainant also stated during last summer the reported party put concrete and asphalt in a creek and now the complainant is having problems with water flooding his property.						
KCRO	2/22/2006	2/9/2006	ARGOSY CASINO	Riverside	Platte	Odors	Mr. Chuck Hatler	ANS	
Comments	Ms. Smith did not detect an odor at the time of her investigation. The department will investigate again in the future.								
Comp. No.	KC10518	Comp. Info	The complainant reported odors similar to rotten eggs coming from the Argosy Casino Waste Water Treatment Plant. The complainant noticed the odors from 6 :00 p.m. to 2:00 a.m. The complainant first noticed the odors on December 31, 2005, and last noticed them on February 7, 2006.						
KCRO	2/22/2006	2/14/2006	HUNT/MARIETTA	Peculiar	Cass	Fugitive Dust	John Bockelman	MRM	
Comments	At the time of the inspection drilling in the quarry was taking place. Mr. Michael Miller, an inspector with the KCRO, did not discover any fugitive dust leaving the reported party's property or on the complainant's property during this time. No blasting occurred during Mr. Miller's two hours of observation between 11:45 p.m. and 1:45 p.m.								
Comp. No.	KC10522	Comp. Info	Dust from blasting is going on to the complainant's property. The complainant states the blasting usually occurs between 10:00 a.m. and 1:00 p.m..

KCRO	2/23/2006	2/9/2006	JOHN PENDERGRAST	Lawson	Ray	Burning	M. Jean Beauvais	RAV	
Comments	Mr. Richard Vani, an inspector with the KCRO, inspected the property and did not discover any clear evidence of violation. Mr. Vani advised Mr. Pendergrast not to burn trade waste.								
Comp. No.	KC10521	Comp. Info	The complainant states the reported party is collecting pesticide boxes and jugs then burning them on the reported party's property. According to the complainant the reported party allegedly collects waste from an elevator he works for in Lathrop.						
KCRO	3/1/2006	2/22/2006	JOSHUA AND AMANDA REYNOLDS	Oak Grove	Jackson	Burning	Sni Valley Fire Department	MC	A2471
Comments	Mr. Michael Cunningham, an inspector with the KCRO, inspected the reported party's property and discovered the reported party burned, without a burn permit a pile of vegetation approximately 20 feet wide by 8 feet high. The fire subsequently caused a grass fire consuming approximately seven acres. During the inspection, Mr. Cunningham observed aluminum beverage cans and wire fencing in the pile. The Sni Valley Fire Department were on site and also noted treated lumber, pant cans, and general trash in the pile. Mr. Cunningham issued NOV #A2471KC for open burning.								
Comp. No.	KC10520	Comp. Info	The complainant states the reported party burned a pile of brush and tree limbs in their field. The brush caught grass near the pile on fire and subsequently spread across approximately seven acres of land. The brush pile also included treated lumber, paint cans, and general trash.						
KCRO	3/8/2006	2/24/2006	BUILDEX	Dearborn	Platte	Fugitive Dust/Particulate	Mr. John McGlaughlin	ANS	
Comments	The complainant is sending pictures to Ms. Smith. At the time of her inspection, the kiln was operating. Ms. Smith did not observe excess emissions or dust from haul roads. Ms. Smith did not issue a violation, but stated further investigation is needed.								
Comp. No.	KC10531	Comp. Info	The complainant reported Buildex occasionally operates a kiln without operating the scrubber, which creates excess emissions. The complainant also stated the reported party is emitting fugitive dust from haul roads.						
KCRO	3/8/2006	2/28/2006	ROY BOWER	Savannah	Andrew	Burning/Open Dumps	Anonymous	ANS	
Comments	Upon inspecting the property Ms. Smith did not discover illegal burning or any violation. However, Ms. Smith mailed fact sheets on burning and solid waste management to the reported party.								
Comp. No.	KC10532	Comp. Info	The complainant states the reported party is burning household trash (cans, groceries, bags, carpet, sheet rock, lumber, etc.) in a barrel and dumping the residue in an adjacent lot owned by Mr. Mike Conger of St. Joseph. The complainant also states an "18-wheeler truck" loaded with waste is present in the reported party's back yard. The reported party told the complainant he would contact Deffenbaugh, but apparently had not gotten around to it yet.						
NERO		2/23/2006	UNKNOWN	Jefferson City	Cole	Fugitive Dust	Ms. Mary Ann Redden	MGS	
Comments									
Comp. No.	NE12222	Comp. Info	The complainant stated on February 14, 2006, fugitive dust was so thick at the Jefferson City Medical Group building it looked like a bad dust storm. The complainant believed the dust was coming from a development across the street from the Jefferson City Medical Group that is quarrying out a wedge of rock so the property can be developed.

NERO	2/23/2006	MIDWEST CONTAINER	Fulton	Callaway	Other	Anonymous	MIH	
Comments								
Comp. No.	NE12224	Comp. Info	The complainant reported Midwest Container Recycling constructed an outdoor furnace (incinerator), which the reported party plans to use to incinerate all chemicals removed from containers so the reported party will not have to pay for legitimate disposal. The incinerator is located behind the main building and it is planned that a metal building will be constructed around the incinerator. The complainant also reported chemicals have been spilled on the right side of the building, near the fence. The complainant does not believe the reported party is handling waste properly. The complainant reported acids are not neutralized and workers have gotten burned.

Comments								
Comp. No.	NE12217	Comp. Info	The complainant reported the Scholastic Company in Moberly moved to the old Dupont building the second week of January, 2006. The company told employees the building contains asbestos, which is to be removed on weekends. The complainant is concerned this was causing health problems to employees at the facility.					
NERO	2/27/2006	DAVID MCDANIEL	Fulton	Callaway	Asbestos	Anonymous	MIH	
Comments								
Comp. No.	NE12229	Comp. Info	The complainant stated the reported party was dumping asbestos siding at a commercial property in Fulton. The complainant took a sample of the material to the University of Missouri and allegedly had it tested for asbestos. The complainant stated the results are positive for asbestos. The complainant also stated the pile of waste cannot be observed from the roadway. The waste is approximately 15 foot across and two foot deep.

Comments									
Comp. No.	NE12236	Comp. Info	The complainant reported white paint was being emitted into the air by Bently Industries. The complainant believed the paint was getting onto vehicles parked at Bently Industries. The complainant does not know if the paint is leaving the property of origin.						
NERO		2/17/2006	RICHARD BELL	Chillicothe	Livingston	Asbestos	Anonymous	SMB	
Comments Mr. Steve Boone, an inspector with the department's Northeast Regional Office (NERO), noted on February 16, 2006, the department previously investigated the building in response to a report received on that date.									
Comp. No.	NE12211	Comp. Info	The complainant stated recently a building was sold in Chillicothe. The complainant heard the building contained asbestos and it would cost approximately \$100,000 to remove. The complainant reported the building burned the weekend prior to the date of the complaint and the reported party is starting to clean up the debris. The complainant is concerned about asbestos in the building. The complainant then stated there is senior citizen housing across the alley from the debris and several other houses and businesses close by. The complainant is concerned the owner of the building is not going to properly remove the asbestos waste. The local Fire Marshall's office investigated the fire.						
NERO		2/23/2006	UNKNOWN	LaPlata	Macon	Burning	Anonymous	DLK	
Comments									
Comp. No.	NE12219	Comp. Info	The complainant stated a contractor building a new hotel on the north end of LaPlata is burying scrap construction waste late in the afternoon. The waste is being burned on the north end of the property and it often smolders during the night causing odors for nearby residents.						
NERO		2/16/2006	RICHARD BELL	Chillicothe	Livingston	Asbestos	Anonymous	SMB	
Comments									
Comp. No.	NE12210	Comp. Info	The complainant reported a former B.R. Harris Office Equipment building in Chillicothe was being renovated and suddenly burned. The reported party began demolition of the building on Sunday. The complainant believes the reported party may have started demolition without providing notification to the department's Air Pollution Control Program (APCP).						
NERO	2/17/2006	2/2/2006	MARK PUEKERT	Bevier	Macon	Burning	Ms. Audrey Smith	DLK	
Comments Mr. Don Kinkhorst, an inspector with the NERO, did not find anyone home at the time of the inspection. Mr. Kinkhorst did not observe any evidence of open burning from Gentry Street and did not observe a violation at the time of the inspection.									
Comp. No.	NE12171	Comp. Info	The complainant stated the reported party was open burning again on February 1, 2006, at approximately 8:30 p.m. The complainant mentioned the reported party burns every Monday, Wednesday and Friday and has been for the last ten to fifteen years.

NERO	2/22/2006	2/10/2006	BILL GAVINESS	Malta Bend	Saline	Burning	Anonymous	MGS	
Comments	Mr. Michael Sudholt, an inspector with the NERO, stated Mr. Caviness bought two mobile homes for his children to use as residences while in college. Mr. Caviness dismantled one, stacked up the wood for reuse and cut up the frame to use in building trailers. In order to clear a space for working and the mobile homes Mr. Caviness cleaned up his yard and burned the refuse. The burning of household refuse is exempt. Whatever materials Mr. Caviness allowed to blow off of his property Mr. Caviness gathered up and put with the refuse to be picked up by a trash hauling service.								
Comp. No.	NE12194	Comp. Info	The complainant stated the reported party was burning one or perhaps two mobile homes in the alley behind the reported party's home. The complainant believes the reported party has burned each night for the past week until approximately 10:00 p.m. The complainant also stated pieces of the mobile home(s) are in the neighbor's field.						
NERO	2/23/2006	2/9/2006	UNKNOWN	Kirksville	Adair	Burning	Anonymous	DLK	
Comments	Mr. Kinkhorst found no evidence of open burning at the described location. Mr. Kinkhorst did not receive enough information to proceed further with the investigation, but did not observe a violation at the time of the investigation. No further action to be taken due to lack of information.								
Comp. No.	NE12192	Comp. Info	The complainant stated the reported party burned trash and brush, including parts of an old building, on February 8th, 2006.						
NERO	2/23/2006	2/23/2006	DOOLITTLE TRAILER	Holts Summit	Callaway	Burning	Anonymous	MGS	
Comments	Mr. Sudholt inspected the facility and discovered smoke pours out of the fuel loading door of a homemade furnace when untreated pallets are put in the furnace. Doolittle Trailer Manufacturing, Inc. uses the furnace for heating purposes. The use of the furnace is exempted under Missouri Clean Air Commission Regulations. Mr. Sudholt recommended the reported party determine the diameter of the stack needed to prevent smoke from being forced out of the loading door during refueling. Mr. Hubbard told Mr. Sudholt they were in the process of trying to do that.								
Comp. No.	NE12218	Comp. Info	The morning of the complaint, the complainant observed black smoke coming from behind buildings at Doolittle Trailer.						
NERO	2/27/2006	2/24/2006	TRUMP TRUCKING/WALT KING	Alexandria	Clark	Fugitive Dust	Mr. Dennis Smith	MIH	
Comments	Ms. Mary Hopke, an inspector with the NERO, went to the area where the cinder/ash product is being stockpiled by Mr. King in Alexandria, Missouri. Ms. Hopke observed three piles of the cinder/ash product stored next to the railroad tracks one block West of Mr. King's property. The property located North of Mr. King's property contained one home and three vehicles. Ms. Hopke did not observe any dust on the vehicles parked at the residence or on the structure. On March 6, 2006, Ms. Hopke contacted Mr. Thad Trump with TNT General Contracting in Kahoka, Missouri. Mr. Trump informed Ms. Hopke the city sent him a letter stating he could no longer unload the cinder/ash product within the city limits. Mr. Trump stated he is currently hauling the cinder/ash product to property owned by Mr. King outside of the city limits. On March 6, 2006, Ms. Hopke told Mr. Trump the unloading of the ash/cinder product is subject to the state Fugitive Dust Regulations and if any dust traveled beyond the property line and documented by the department, it would warrant a violation of the Air Pollution Control Laws and Regulations. Ms. Hopke recommended Mr. Trump utilize a type of wet method to control the dust during unloading activities.								
Comp. No.	NE12226	Comp. Info	The complainant reports Trump Trucking is hauling loads of fly ash and cinders onto a lot currently owned by Mr. Walt King in Alexandria. The complainant believes Mr. King uses the ash/cinder product on his property in town (a junk yard) and is also hauling it to an island located on the Mississippi River. The dust coming from the piles of ash/cinder is leaving the reported party's property and becoming a nuisance for residents of Alexandria. The complainant stated the dust is very bad when loading and unloading of the material is taking place.

Comments	Mr. Sudholt was unable to find the unauthorized dump, any sign of burning or any disturbed soil. Since there was no one on site at 11:47 a.m. during the investigation Mr. Sudholt did not trespass to find the dump. For more information refer to the Moberly Police Department Incident Event Report (2006021743) dated Sunday February 26, 2006. Mr. Sudholt did not observe any violation of Missouri Air Commission Open Burning Regulations.								
Comp. No.	NE12232	Comp. Info	The complainant reported an illegal landfill was burning on Sunday, February 26, 2006, at 12:10p.m. The fire was located behind a residence at 1490 CR 2275, which is 1.2 miles West of the Junction of Security Lane and Urbandale.						
NERO	2/27/2006	2/1/2006	TOWN & COUNTRY MOTORS	West Quincy	Marion	Burning	Anonymous	MIH	
Comments	Ms. Hopke went to Town & Country Motors and met with the owner, Mr. Bill Schneider. Mr. Schneider informed Ms. Hopke that Mr. Schurck operated a used car lot down the street from him and the name of that lot is Town & Country #2. Mr. Schneider then told Ms. Hopke that if there was a fire and Mr. Schurck was involved it would have been on that lot. Mr. Schneider also stated that Mr. Schurck closed the business and was staying in a motel in Quincy. Mr. Schurck has since left and his whereabouts is unknown. Ms. Hopke went to Town & Country #2 and met with Mr. Steve Cisco. Mr. Cisco told Ms. Hopke he worked for Mr. Schurck and he did not know where to find Mr. Schurck at that moment. Mr. Cisco stated Mr. Schurck planned to open a car lot in the Honeywell area. Mr. Cisco also told Ms. Hopke he was unaware of any tires being burned. Ms. Hopke observed an area directly north of the shop where the ground is stained with oil. The area is approximately six feet in diameter. Ms. Hopke informed Mr. Cisco the contaminated soil needed to be excavated and taken for disposal at a permitted landfill. Mr. Cisco stated he would inform Mr. Schurck if they made contact. Ms. Hopke also told Mr. Cisco no waste from the business can be burned and Mr. Cisco stated he understood. Ms. Hopke asked Mr. Cisco if he had an address for Mr. Schurck and he said he did not.								
Comp. No.	NE12159	Comp. Info	The complainant reported they witnessed Mr. Brian Schurck, an employee of Town & Country Motors, burying scrap tires behind the reported party's garage approximately one week earlier. The complainant also reported seeing heavy waste oil contamination on the ground behind the garage. The complainant initially reported the finding to the Lewis County Sheriff's Office, who instructed the complainant to contact the NERO.						
NERO	3/2/2006	2/28/2006	BRAD WHITSTOCK	Arbela	Scotland	Burning	Anonymous	SMB	
Comments	On March 2, 2006, Mr. Boone received a call from the complainant stating the sawdust fire had been put out that day. The complainant stated the department does not need to get involved. The complaint was withdrawn at the request of the complainant. Arbella is not an incorporated area so the burning may have been exempt.								
Comp. No.	NE12238	Comp. Info	The complainant stated the reported party has been burning sawdust for the two weeks prior to the complaint date. The complainant believes it is causing smoke problems for several residents in town. The local fire department tried twice to extinguish the fire with water and were unsuccessful. The complainant suggested the reported party spread the pile out to get rid of hot spots. The complainant believes the fire started because of spontaneous combustion.

Comments Ms. Beth Marsala, with the department's Southeast Regional Office (SERO), inspected the site and noticed burning brush taking place, but observed no evidence of any other burning. Ms. Marsala noted the smoke was white and the fires were under control. Ms. Marsala did not observe rims or steel belts in the burn areas. Ms. Marsala inspected several piles that were not burning for shingles or other construction/demolition waste, but did not observe any. Ms. Marsala noticed a lot of building taking place. Ms. Marsala did observe evidence that the reported party separated construction/demolition waste from the brush piles. Ms. Marsala noticed only one tire on the site (across the road from a burn pile). Ms. Marsala also noticed neat stacks of scrap lumber, pallets, etc. all placed far from the burn areas. However, Ms. Marsala did not notice any roll-off trash dumpsters for trash. Ms. Marsala spoke with the complainant and informed them of the departments observations. The complainant stated they appreciated the inspection, but insisted the reported party burned tires. The complainant stated they would take pictures the next time of the tires and the fire. Ms. Marsala informed the complainant that picture would be helpful and they can contact the department again. No further action necessary.

Comments	At the time of the inspection, Mr. Walter Shull, an inspector with the SERO, did not observe fugitive dust or particulate matter leaving the sawmill property of origin, but it appeared fugitive dust may have been a problem in the past and a possibility for future 10 CSR 10-6.170 violations. Mr. Dunlap, the sawmill owner, and Mr. Shull discussed possible corrective actions. Mr. Shull provided Mr. Dunlap with a copy of the state regulation. Mr. Shull did not observe any staining of dry creek bed from the public county road. Mr. Shull issued a letter of warning to Dunlap Sawmill for particulate matter observed on adjacent property and recommends periodic surveillance of sawmill operation when department representatives are in the area.								
Comp. No.	SE6253	Comp. Info	The complainant reported dust from a sawmill is blowing offsite. The sawmill has a new blower making the problem worse. The complainant also stated there is black staining on the banks of a dry creek not far from the sawmill. When it rains, the water in the creek has a sheen. The creek eventually drains into Huzzah River.

Comments	Mr. Todd Raney, an inspector with the SERO, began an odor investigation in the Perryville area in December and this investigation continues. Mr. Raney's investigation is focusing on the county including the towns of Applecreek, Biehle, Frohna, Altenburg, Brazeau, Cross-town, Menfro, and Belgique. Mr. Raney did not notice any odor as described above when in the area. No further action is required at this time.								
Comp. No.	SE6104	Comp. Info	The complainant reported odors that smell of mold and sewer that are present in all of Perry County including: Altenburg, Frohna, Brewer, Biehle, etc. The complainant is concerned about health issues. The complainant also stated the odors are especially noticeable when it rains.

Subsequent inquiries suggest that no NESHAP's demolition notification was made to the Missouri Air Pollution Control Program. Mr. Raney issued Notices of Violation #3226SE and #3227SE to document the violations.								
Comp. No.	SE6355	Comp. Info	The complainant stated demolition was taking place at the old municipal utilities building located on Kingshighway Street in Cape Girardeau between Taco Bell and Taco John's. The complainant was concerned with asbestos inspection and notification requirements.						
SERO	3/1/2006	2/27/2006	GRANT OR CURT COX	Waynesville	Pulaski	Burning	Ms. Linda Wheeler	WS	
Comments	On March 1, 2006, at 2:55 p.m., Mr. Walter Shull, an inspector with the department's SERO, arrived on site to conduct an inspection. Mr. Shull noted that no burning was taking place at the time of inspection and the developers were not available. Mr. Shull did notice several piles of land clearing debris on site. The two most southern piles appeared to be less than 20 yards from occupied structures on Rock Hill Road and the southern pile down in the valley may contain metal cans, dumpsite trash, and items other than land clearing trees/brush. Mr. Curt Cox obtained a burn permit from the department that will expire April 3, 2006. Permit conditions stipulate that burn piles must be at least 200 yards from occupied structures or an air curtain destructor must be used to control smoke and particulate. Mr. Shull will recommend burning take place only when wind direction will blow smoke away from occupied dwellings. Mr. Shull contacted Mr. Grant Cox by telephone and advised him of these requirements.								
Comp. No.	SE6282	Comp. Info	The complainant stated the reported party is burning bulldozed trees and trash from the woods.

Upon investigation Mr. Dan Leyland, an inspector with the department's Southwest Regional Office (SWRO), did not observe any burning. Mr. Leyland noted HCW is handling the project and the excavation company is Tom Boyce Excavation. Mr. Leyland contacted Mr. Gary Folks, of HCW, concerning the for obtaining a burn permit. Mr. Leyland observed the construction area is large and stated it is difficult to determine if the reported party is in compliance with the 600 feet set back regulation is being maintained. Mr. Leyland traveled 5/8 to 3/4 of a mile down a logging road to just west of the Branson High School Entrance on Buccanhan Road. Mr. Leyland observed a few burned brush piles and many brush piles not yet burned. Mr. Leyland could not observe the entire project. On February 21, 2006, Mr. Travis McKenzie of Boyce Excavation contacted the department and provided permit #05-090 ext. 3, APCP/Branson. Mr. McKenzie stated they are trying to determine if they could afford to use a tub grinder or an air curtain destructor to prevent open burning. However, the permit #05-090 ext. 3 is not a department permit. The department permit is expired. The City of Branson and Boyce Construction are working to obtain a current burn permit. Mr. Leyland did not issue a violation at the time of the investigation.

On March 2, 2006, Mr. Boone received a call from the complainant stating the sawdust fire had been put out that day. The complainant stated the department does not need to get involved. The complaint was withdrawn at the request of the complainant. Arbella is not an incorporated area so the burning may have been exempt.									
Comp. No.	NE12238	Comp. Info	The complainant stated the reported party has been burning sawdust for the two weeks prior to the complaint date. The complainant believes it is causing smoke problems for several residents in town. The local fire department tried twice to extinguish the fire with water and were unsuccessful. The complainant suggested the reported party spread the pile out to get rid of hot spots. The complainant believes the fire started because of spontaneous combustion.

Comments	On March 1, 2006, at 2:55 p.m., Mr. Walter Shull, an inspector with the department's SERO, arrived on site to conduct an inspection. Mr. Shull noted that no burning was taking place at the time of inspection and the developers were not available. Mr. Shull did notice several piles of land clearing debris on site. The two most southern piles appeared to be less than 20 yards from occupied structures on Rock Hill Road and the southern pile down in the valley may contain metal cans, dumpsite trash, and items other than land clearing trees/brush. Mr. Curt Cox obtained a burn permit from the department that will expire April 3, 2006. Permit conditions stipulate that burn piles must be at least 200 yards from occupied structures or an air curtain destructor must be used to control smoke and particulate. Mr. Shull will recommend burning take place only when wind direction will blow smoke away from occupied dwellings. Mr. Shull contacted Mr. Grant Cox by telephone and advised him of these requirements.

Comments	Mr. Albert Wampler, an inspector with the SERO, did not find anyone on-site at the time of his inspection. Mr. Wampler observed the site from a county road and noticed an old school building in very bad condition. However, Mr. Wampler did not observe any demolition taking place. Mr. Wampler noticed old tires dumped behind the building. Mr. Wampler was not able to gain access to enter property, but noticed the drive into the property is well used. Mr. Wampler only saw used tires on-site next to the building. The building did not appear to be very stable but without demolition or repair, any possible asbestos would not be disturbed. Mr. Wampler referred this matter to the Solid Waste Management Program to address the tire issue.								
Comp. No.	SE6289	Comp. Info	The complainant stated the reported party owns the Old Mill Creek School and believes asbestos is in the building. The complainant also stated the reported party is dumping old car parts and tires in, at and around the school. The complainant is concerned about fluid leaks and mosquitoes.

Comp. No.	SW8209	Comp. Info The complainant stated dust blows off the reported party's property onto the complainant's property at the fuel tank. The diesel fuel runs down the side of the tank and is on the ground. The complainant believes there is possibly no containments but there are open oil drums, batteries on the ground, old tires, and there is a junk pile containing scrap metal and old appliances. The reported party recently placed fresh gravel on top of the stain. The facility has obtained a operating permit, #MO-G490150. The complainant will send pictures of the items described in the complaint.

Comments	Mr. Troy Potteiger, an inspector with the SWRO, inspected the property and is not certain the household plumbing is piped to the creek. Mr. Potteiger did observe a pit dug behind the house that appears to contain septic waste. Mr. Potteiger also noticed the property is very trashy with household waste scattered around the yard. The reported party stated he owns six acres around the house and there is no way the trash has left his property. Mr. Potteiger also noticed the reported party has a household dump behind the house. Mr. Potteiger advised the reported party to pick up the trash and put a fence around the dump.								
Comp. No.	SW8139	Comp. Info	The complainant states a sewer is piped directly to a gully leading to Spencer Creek. The complainant had been forwarded to the Camden County Waste Water Department. The complainant also reported there may be junk cars leaking and trash being burned closed to neighbors that may be causing a public nuisance.

SWRO	3/13/2006	3/3/2006	DCI GENERAL CONTRACTORS	Springfield	Greene	Other	Mr. Jason Woodmanser	GLE	
Comments Ms. Glennis Evans, an inspector with the SWRO, spoke with Mr. Doug Dahnke, the Superintendent for DCI General Contractors (DCI), Mr. Mike Allen, the Operation Manager for DCI, and Mr. Ben Franka, of Environmental Works Incorporated (EWI). Ms. Evans was informed EWI performed an asbestos and lead audit on Camp Manor, Pearl and Windsor Apartment Buildings. Lead based paint was discovered at all three sites. The Camp Manor building had a majority of wood painted products removed and disposed of with Waste Management. Benchmark Construction Services is scrapping, sanding and repainting the remaining trim. Dan, an employee of Benchmark Construction Services stated none of their employees have been ill. Ms. Evans was informed no sand blasting had taken place, but a palm sander was being used, and the windows are old and not sealed so there is ventilation at these points. Ms. Evans contacted Mr. Don Meuschke, of OSHA, concerning employee safety issues. Ms. Evans did not observe any violations at the time of the inspection.									
Comp. No.	SW8225	Comp. Info	The complainant stated the reported party is grinding possible lead paint from the walls of an old apartment building. The complainant believes the lead dust is making employees sick. The reported party is not taking proper measures for disposal and safe working conditions. See attached e-mail.
